

## Roos International, Ltd. "E" LINE CARD

### **Texturglas® Glass Textile Wallcovering System**

The exceedingly durable and paintable Texturglas® is an environmentally-friendly collection of textured designer wall finishes. Transform ordinary or problem walls into beautiful walls with 'fashion forward' texture and color. Features include the ability to strengthen, stabilize and protect walls, while reducing the risk of mold and mildew growth. The wall system can be enhanced with any type of paint finish or color. The GreenSpec® listed product is reusable, recyclable and emits no VOCs; LEED® evaluation available. Texturglas® is a registered trademark of Roos International Ltd.

### **Novelio® Paintable Wallcovering**

Novelio® paintable wall covering is the solution you have been waiting for. Available in a variety of paintable textures, as well as new and exciting jacquard weave designs with custom logos and custom designs available, it lends a touch of elegance to any interior. All textures are technologically designed for ease of installation and can be repainted as desired. The collection features Novelio® CleanAir, Air Purifying Paintable Wallcovering, which absorbs and permanently captures 70% of air-borne aldehydes over time. In addition, Novelio® MoldX, Anti-Microbial Paintable Wallcovering, stops the development of mold and bacteria on its surface and guarantees the long-lasting protection of walls, including easy cleaning and decontamination. Novelio® products are made by Saint-Gobain in Europe and are environmentally friendly products with a Class 1 Oeko-Tex Standard 100, which certifies the absence of environmentally harmful substances. Roos International is the exclusive distributor of Novelio® Paintable Wallcovering in North America.

### **Sempatech® Paintable Acoustical Wallcovering**

Sempatech® decorative covering for walls and ceilings reduces unwanted noise and enhances a room's acoustical performance with its sound absorption capabilities. Paintable glass textile is laminated to a flexible backing to form a thin-wall, decorative, textured, acoustical wall treatment. With an NRC rating of .20 (the same as most acoustical wall carpet), Sempatech® aids in compliance with HIPAA Privacy Act for healthcare facilities and ANSI regulations for improved learning environments in educational facilities. It is also used in hotel rooms, conference rooms, libraries, churches, offices, media rooms, residences, and anywhere there is a need for sound control.

Sempatech® comes from the factory with a white coating and can be used as is or painted to match any design scheme. It can be applied to walls or ceilings. Roos International Ltd. Is the exclusive distributor of Sempatech® in North America.

### **EnVision® Environmentally Friendly PVC-Free Contract Wallcovering**

Even the best traditions can be improved. As an innovative nonwoven product, EnVision® is an alternative to traditional commercial vinyl. Offering clean, contemporary colors and designs, the collection appeals to a variety of markets: from hospitality to healthcare and commercial offices to retail stores. EnVision® is the perfect blend of aesthetics, Type I & II performance and earth friendly characteristics. The GreenSpec® listed product is PVC- and VOC-free, contains recycled content and is designed to

minimize installation waste; LEED® evaluation available. EnVision® is a registered trademark of Roos International Ltd.

### **Verastone® Handcrafted Wallcovering for Luxurious Interiors**

Beautiful hand painted, faux finishes are the hallmark of the Verastone® collection. The designs are custom made per order by master craftsmen and artisans in the U.S. and have many advantages for designers and applicators: rather than faux finishing directly on the wall in the usual lengthy process, the rolled or hand-torn Verastone® papers are applied directly to the wall. The process is straightforward and simple... the appearance is anything but. Verastone® offers a variety of designs and finishes for creating luxurious interiors in any room: hand sculptured leaf designs, beautiful Venetian Slate and extraordinary faux finished hand torn papers. The eco-friendly and Class A fire-rated product is ideal for

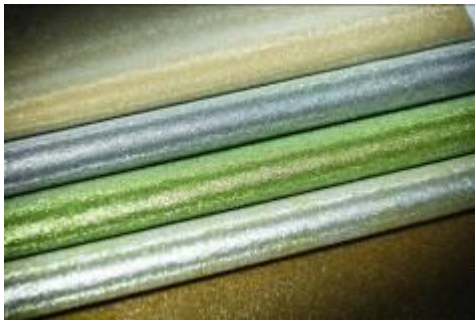

commercial and residential applications. Verastone® is a registered trademark of Roos International Ltd.

### **Yahgi™ Natural Grasscloth, Paperweaves and Textiles Wallcovering**

This nature-inspired, 'made for contract' collection is composed of rapidly renewable natural fibers, vegetable dyes and water-based inks. All components are biodegradable and, when applied with low-VOC adhesives, contribute to a healthy interior environment. LEED® evaluation available. Yahgi™ combines nature-inspired textures in a multitude of sophisticated colors with true sustainable

characteristics to give your space an aura of uniqueness and harmony with nature. The collection includes Silk Screen Prints on Sisal, Metallic Hand Dyed Jutes, and an assortment of silks, strings, paperweaves, and raffia. Yahgi™ is a registered trademark of Roos International Ltd.

### **Enchanting™ Glass Bead Wallcovering**

The beads that outshine the rest. Boasting a 100% glass bead top layer, Enchanting™ 54" flexible glass bead wallcovering offers the best flexibility of its kind for flawless installation. Available in over 35 colors and two styles – Enchanting™ and Enchanting™ Glitter, for even more glamour and shine. Enchanting™ offers more than brilliant beauty – it

contributes to a healthy environment. The product is free of PVC, formaldehyde and heavy metals. Priced competitively. Roos International is a proud distributor of Enchanting™ Glass Bead Wallcovering.

### **Primo Faux Leather & Suede Specialty Wallcovering**

Innovative products for creative people. This collection boasts a wealth of vibrant colors and novel patterns. Indulge in faux leather luxury with contemporary finishes and nature-friendly characteristics: traditional leathers, exotic skins and unique polished, etched or metallic surfaces. Explore microfiber faux suede

in patterns ranging from textured sculpted snakeskin to exceptionally soft tactile sensations. Discover unique raffia weaves in 100% eco-friendly cellulose. PRIMO™ Faux Leather and Suede specialty wallcovering is a trademark of Roos International.

### **Interlam Modular Decorative Panels**

Interlam architectural decorative surfaces are multi-faceted and versatile and add unique interest to any space. This innovative collection offers a variety of options. *Art Diffusion* high-end decorative, carved panels and Screens make any surface a “WOW” area. *Elements* minimalist and nature-inspired wood carved panels add a touch of harmony. *Stone Veneers* are micro thin real slate veneers and can be applied in horizontal or vertical patterns.

*Valchromat* solid color MDF products are water-resistant, ecological and strong. *3-Diculous* image panels are dynamic and digitally created. *Mirage* is a proprietary process creating 3-dimensional textures virtually from any graphic design source. Roos International is the distributor of Interlam in Broward, Palm Beach, and Dade counties in Florida, as well as the Dominican Republic and the West Indies.

### **Architectural Wood Wallcovering and Woodworking Veneers**

Custom-made to meet your specifications, CraftWood architectural grade wood wallcovering is a Class A rated material suitable for residential, commercial and institutional installations. Offered in over 200 different species and applied just like heavy vinyl wallcovering, CraftWood is uniquely designed by nature for an unequalled look and feel. Friendly Harvest is the latest offering for use in woodworking, store fixtures, wallcovering and much more.

Uniquely styled after exotic and domestic species, this engineered and reconstituted wood veneer product is made using rapidly renewable trees from managed forests. FSC Certified and LEED® evaluation available. Roos International is a proud distributor of SR WOOD® Veneer Products in Florida, Georgia, the Carolinas, Virginia, Maryland and New Jersey.

### **Jacobsen & Balla Handpainted Wallcoverings**

The Jacobsen & Balla collection of distinctive wallcoverings are produced using hand-mixed, full spectrum paint formulas that offer breathtaking customized colors with infinite clarity and richness. These award-winning, Class A rated wallcoverings are washable, durable, fade resistant and appropriate for all living spaces. With products that focus on a fusion of artistic transitional styling, innovative materials and handcrafted production techniques, Jacobsen & Balla offers a provocative and eco-friendly alternative to the faux finish. Roos International is a proud representative of Jacobsen & Balla Handpainted Wallcoverings.

### **Westlake IV Grasscloths, Paperweaves and Textiles**

Westlake IV is composed of rapidly renewable natural fibers. All components are biodegradable and, when applied with low-VOC adhesives, contribute to a healthy interior environment. The collection includes grasscloths, paperweaves and textiles in naturals and metallics. Roos International is a proud distributor of Westlake IV from Georgia to New Jersey.

### **Mirror & Glass Patina Custom Collection**

Our Mirror & Glass Patina Custom Collection introduces the fusion of handcrafted antique patinas with ornamental design that delight the modern clients of today. Whether the design be a gentle patina or a visual extravaganza, your vision is our command. Our glass and mirror pieces feel right at home in a grand hotel entryway, a unique armoire or a jewel box of a small guest bath. The studio experts at Garay Artisans create each mirror or glass commission by hand, so each is unique and made custom to your specifications. Roos International is a proud representative of Garay Artisan's Mirror & Glass Patina Collection.

### **DANI Fine Leather Collection**

The DANI Fine Leather Collection offers a wide range of luxurious textures and colors with unique features, made possible by the company's long tradition of excellence in manufacturing and continuous research. The new Emboss Collection provides a selection of beautiful patterns that can be applied to stock leathers, allowing you to create endless design options. DANI products are

manufactured by Gruppo DANI in Italy, the first leather producer in the world to be awarded the ICEC Environmental Product Balance Certification by The Istituto Di Certificazione Della Qualita Per L'Industria Conciaria for their environmental leadership. Roos International is a proud representative of DANI Leather USA.

### **MAYA Eco-Friendly Digital Printed Wall Illusions**

Unleash your creativity with MAYA Eco-Friendly Digital Printed Wall Illusions. Our custom digital printed murals, wallcovering and graphics open up your interior space to endless possibilities. Custom-made for each unique project, you choose the size, shape and image.
